Aim

To practise asking and answering questions.

Activity

Students ask and answer questions.

Organization

Groups or whole class

Preparation

Copy enough question cards for the number of students in your class.

What do I do?

- 1 Sit students in a circle. If you have a large class, divide students into two groups.
- 2 Give each student a question card. Students write a question on the card that they would like to ask the student to their right.

If you want to practise a particular tense, restrict questions to this tense.

- 3 Student A asks his/her question to Student B, sitting on his/her right. Student B answers and the rest of the group decide whether the question and answer were formed correctly.
- 4 Student B asks his/her question to Student C, and so on around the circle until the activity has returned to Student A.
